Composing music with AI
Hello!

I am Valerio Velardo, PhD
Cofounder & CEO @ Melodrive
valerio@melodrive.com
Music: A history of tools

Ivory flute found at the Hohle Fels cave system, Germany (35K–43K BC)
Music: A history of tools
The AI music revolution?
AI music landscape

- Melodrive
- Sony CSL
- Melomics
- PGUN
- Magenta
- Jukedeck
- Brain.fm
- AMPER MUSIC
What will be the impact of AI in music?
What will be the impact of AI in music?

1. Replace composers
2. Enhance the creative process
An interesting analogy...
What will be the impact of AI in music?

1. Replace composers

2. Enhance the creative process
How AI can enhance the music creative process

- Exploring new musical ideas
- Fast music prototyping
- Infinite version of a composer
... I picture myself crafting [musical] ideas and then using the AI to augment variations or even other intensities [...]. I see AI-assisted composition where I can curate what the AI comes out with and tweak that.

Guy Whitmore, Video Game Composer
Melodrive

- AI music engine
- Realtime generation
- Emotionally-variable music
